

Camera Wireless 18IR 1080P 90°

SKU

23312

The **23312 camera** is a specialized version of our wireless **23311 series**, featuring a **narrower 90° lens** for a more focused field of view and precise monitoring.

It is ideal for **trucks, forklifts, construction equipment, and industrial vehicles** where the operator needs a clear view of a specific area — such as forks, hooks, or loading zones.

With **1080p AHD image quality**, **18 infrared LEDs for night vision**, a **built-in antenna**, and **IP69K waterproof protection**, the camera ensures **stable and reliable performance in demanding environments**.

Compatible with:

Monitor **21322** or system **28339**

(Note: system 28339 is the latest generation with enhanced wireless performance and image quality.)

Teknisk information

Specifications

Operating Frequency: 2400–2483.5 MHz

Lens: 1/3" Sharp CCD

Video Output: 1080p AHD

Resolution: 1920(H) × 1080(V)

Viewing Angle: **90°**

Antenna: Built-in

Vibration Rating: 10G

Waterproof Rating: IP69K

Minimum Illumination: 0LUX

Voltage: DC 10–32 V

Dimensions (W×H×D): 106 × 75 × 70 mm

Operating Temperature: ?40°C ~ +60°C

Infrared LEDs: Yes (18 pcs)

Night Vision: Yes

Color: Black

Lens Heating: Yes

Weight: 376 g (400 g with bracket)
