

Kamerasystem 10.1" 1080P Wireless inkl. kamera 23311 QUAD 4CH

SKU

28351-C

This is a complete wireless HD rear-view camera system with a 10.1-inch IPS monitor and a 1080P camera with a built-in antenna. The system offers up to 200 m wireless transmission range in clear line of sight and uses automatic frequency hopping for a stable and interference-free signal. The monitor supports 1/2/3/4 split-screen display and features a clear OSD menu for mirror/normal image switching, scaling, and reverse delay. The camera provides a 130° field of view, 10 m IR night vision, and an IP69K waterproof rating, making it reliable in all weather conditions.

Teknisk information

Monitor: 21340

Screen: 10.1-inch IPS screen

Wireless Receiving: Built-in 2.4G wireless receiver

Picture Mode: 1 / 2 / 3 / 4 screen mode

Operating Frequency: 2400–2483.5 MHz

Receiving Sensitivity: ? ?86 dB

Receiving Distance: Up to 200 m clear line of sight

Resolution: 1024 × 600

Color System: PAL / NTSC (Auto)

Brightness: 600 cd/m²

Load Dump Protection: ISO16750-2 Standard (Us=174V, Ri=4?, Td=350ms)

Anti-Vibration Rate: GB/T 2423.56-2023 Standard (Random 5G vibration)

Operating Temperature: ?20 °C to +70 °C

Storage Temperature: ?30 °C to +80 °C

Operating Voltage: DC 11–32 V

Dimensions (L×W×T): 265 × 168 × 37 mm

Weight: 1840 g

Camera: 23311-C

Image Sensor: 1/3.7" color CMOS

Wireless Transmission: Built-in 2.4G digital wireless transmitter with integrated antenna

Transmit Power: 18 dBm

Transmit Distance: Up to 200 m clear line of sight

Resolution: 1080P

Effective Pixels: 1920(H) × 1080(V)

Viewing Angle: 130°

Infrared Distance: 10 m

Shell Material: Aluminum alloy

Waterproof Rating: IP69K

Operating Voltage: DC 11–32 V

Operating Temperature: -20 °C to +60 °C

Storage Temperature: -30 °C to +70 °C

Anti-Vibration Rate: GB/T 2423.56-2023 Standard (Random 5G vibration)

Outer Dimension (W×H×D): 106 × 75 × 70.4 mm
