

## Camera 1080P AI Ajustable 100°

### SKU

13023

Our AI-powered "PDS" HD rear-view camera, model 13027, is the perfect complement to our wired camera systems. The live HD image on your display shows the area surrounding the vehicle, with pedestrians clearly highlighted and colour-coded warning zones indicating their distance from the vehicle.

The system features a camera with a 100° field of view, providing a wide and reliable perspective. The detection zones are fully configurable, allowing you to adapt the monitoring area to your specific operational needs.
