

## Camera 1080P AI 1-ZON 100°

### SKU

13026

Our AI-powered “PDS” HD rear-view camera, model **13026**, is the perfect complement to our wired camera systems. The live HD image on your monitor provides a clear real-time view of the vehicle's surroundings, where pedestrians are highlighted and colour-coded warning zones indicate their distance. The system features a camera with a **100° field of view** and **one detection zone**, giving you a wide and reliable perspective behind the vehicle.

### Teknisk information

**Image Sensor:** 1/2.9" Color CMOS

**Effective Pixels:** 1920 (H) × 720 (V)

**Horizontal Resolution:** 1080P

**Viewing Angle:** 100°

**Detection Function:** Pedestrian/Vehicle Detection and Warning

**Detection Zone:** 1 zone

**Alarm I/O:** External Speaker (with adjustable volume)

**Waterproof Rating:** IP69K

**Operating Voltage:** DC 12V ±10% (powered by monitor)

**Operating Temperature:** -20°C to +60°C

**Storage Temperature:** -30°C to +70°C

**Vibration Rating:** 10G (GB-T2423056-2006)

**Dimensions:** 82 (W) × 73 (H) × 68 (D) mm
