

Monitor 7" 1080P QUAD 4CH

SKU

10324

Monitor 10324 is an advanced 7-inch monitor supporting four video channels simultaneously. It features high resolution (1024×600), 600 cd/m² brightness, and 12 display modes for maximum flexibility. With recording and playback functions, image flipping, and a wide 11–32 V operating voltage, it's ideal for professional vehicle applications. Rugged 18-core connector and surge protection ensure reliable performance in demanding conditions.
