

Kamera 6IR 1080P Shutter 130°

SKU

13003

Camera 13003 is a waterproof 1080P backup camera with an electric shutter that protects the lens from dirt and debris. Its rugged aluminum alloy housing and fully sealed IP69K-rated design make it ideal for all-weather use and demanding environments. With a 130° wide viewing angle, it provides excellent rear coverage, while the 6 built-in IR LEDs offer up to 15 meters of night vision for safe operation in darkness. The integrated heating and anti-fog function automatically activates below 10 °C, ensuring a clear view in all seasons.
